Spring Wheat and Corn.

WASHINGTON, Aug. 15.—The department of Agriculture to-morrow, will issue a report on the condition of the spring wheat and corn crops. The statement of the condition of these crops as received from correspondents of the department has not as yet been fully tabulated. While nothing official can be obtained it is believed the report will show a falling off in the crop of spring wheat which will not be so large as generally antici-pated, also that the decrease in corn west will be lower than expected.
